

5/23/16

Keith Johnson DEQ

- made contact w/ Bullseye. Meeting tomorrow.
- Path forward
 - Baghouse running as of yesterday
- * - Send lead fint MSDS
 - On 6th, owner on roof, thought saw smoke.
Did testing, then realized totally fine. Looking at wrong. Put in all new bags. Put a second furnace into baghouse.
 - Mentioned cobalt
 - Highly suggested electric monitor
 - Dave Kauth new permit writer. Taking over for Greg.
- George (b) (6)
- Path forward
 - Draft MAD. Modify that?
 - Extend cease & desist? Harder, not good for company
 - Outcry if back in unfiltered furnaces
 - They make recommendation, Gov orders DEQ to order them. In detail in statute.

- Need from EPA?

- Data analysis work Chris Swab back to March
